

International Style

With products sourced from a wide range of innovative manufacturers around the globe, including some of the world's most celebrated designers and fabric houses from Italy, Spain and the United Kingdom, International Interiors offers the best of the best.

Renowned for their classical furniture design, International Interiors are fast becoming known for their extensive range of contemporary furnishings.

The company also provides professional interior design advice and complete project fit-out on a turn-key basis. The latest design project undertaken by International Interiors was the multi-million dollar home Baltimore, on prestigious Sovereign Island.

Developed by Chris and Michelle Kahler, the project was personally overseen by International Interiors CEO Dominic Tam. The home is Chris and Michelle's fifth project on the island and Dominic has worked with them on each of their five homes. Over the years Dominic has built such a rapport with the couple that Michelle entrusts Dominic with the majority of design choices.

Every aspect of the home was carefully planned, from the exquisite mosaic tiles and wall paper, to

the luxurious tufted wool carpets and imported tap wear. With such attention to detail, Dominic took special care to furnish the home with contemporary and sophisticated designs that complimented the home's unique design features.

Using the finest Italian lighting, furniture, custom floor rugs and decorative accessories, the wow factor has been added to an already beautiful home.

Such meticulous attention to detail, with a strong focus on each client's individual requirements, ensures International Interiors maintain their strong reputation and respected range of customer's throughout Australia.
